"I wish I would have done this sooner. This wasn't something I talked about, even with my doctor. I can't believe I waited so long. It's improved every part of my life."

- *J.B.*

"Tone is a fantastic, easy treatment that has left my abs looking defined without going to the gym."

INTRODUCING THE BEST VERSION OF YOU.

Meet ApexRF, a new innovative platform designed specifically with men in mind. Equipped with multiple non-invasive technologies, ApexRF is a nonsurgical alternative to address your unique concerns, helping you feel more comfortable and confident in your body.

Experience the benefits of customized care without the side effects or downtime associated with other common treatment options.

**TRUSTED TECHNOLOGY.
PRECISION TREATMENTS.
EXCEPTIONAL RESULTS.**

REGAIN CONFIDENCE. REVITALIZE CIRCULATION. TRANSFORM MUSCLES. CONTRACT SKIN.

Apex Circulatory

The Apex Circulatory handpiece is an advanced, non-invasive solution that uses clinically proven bipolar radiofrequency (RF) to safely and effectively improve blood circulation without prescriptions, side effects, or surgery. Its unique design and pivoting applicator deliver precise, pain-free procedures to promote circulatory wellness. Quick, zero-downtime treatments are conducted in the comfort of your provider's office.

Tone

Tone is a non-invasive solution designed specifically to increase muscle strength. It uses electrical muscle stimulation (EMS) to target specific muscle groups and induce involuntary muscle contractions.

Morpheus8 Burst/Burst Deep

Discover Morpheus8 Burst and Morpheus8 Burst Deep, InMode's advanced bipolar radiofrequency microneedling devices. These innovative technologies deploy clinically proven fractional radiofrequency (FRF) energy to contract loose tissue and reveal natural-looking results.

Be as incredible as you feel.
