## CUSTOMIZABLE COMBINATION FACIAL TREATMENTS

**Facial self-care starts with your skin. Achieve natural looking results with zero downtime to refine the way you look.**

*"My Define combination treatments have elevated my wellness routine, helping me to put my best face forward every day."*

- MELISSA | PATIENT

### WHAT IS DEFINE?

Define is the ultimate all-in-one solution redefining facial procedures. Define deploys multiple non-invasive technologies that can be combined to help you achieve a natural-looking appearance without surgery, scars, or downtime. It offers quick, tailored procedures for your face, neck, and jawline.

### HOW DOES DEFINE WORK?

Define uses a combination of synergistic complementary energies including bipolar radiofrequency (RF) and fractional radiofrequency microneedling. Its unique design with multiple clinically proven technologies help to reveal a natural-looking younger facial appearance.

### WHAT CAN I EXPECT DURING THIS TREATMENT?

Define is a unique, non-invasive way to revitalize your facial tissue without surgery. It's hybrid configuration of both hands-free and hand-operated technologies address the complex topography of the face and enables customized procedures in all facial regions. All treatments are performed in the comfort of your provider's office.

### HOW MANY SESSIONS ARE RECOMMENDED?

Your practitioner will recommend the ideal combination of sessions to be performed based on your objectives. Treatment times and frequency will be specifically tailored to obtain the optimal results.

### WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

For patients wanting tweakments without any disruptions to their daily activities, Define is ideal. You can return to your regular routine immediately after these procedures.

**Please speak to your provider to see if you are a candidate.**
